

VERTICAL WATER COOLED SINGLE PACKAGED AIR CONDITIONERS

These water cooled single packaged air conditioners offers a wide range of commercial and industrial applications. They can be used as either free blow unit or ductwork type.

FEATURES

- Hermetic sealed scroll compressor.
- Evaporator coil is plate fin bonded with plain or inner groove copper tubes.
- Double intel centrifugal fan.
- Air filter are permanent and washable.
- Wired remote controller.
- High and low pressure switch.
- Filter drier.
- Factory test run and fully charged with R-22.

OPTIONAL COMPONENTS

- Flow switch.
- 24V control circuit.
- Semi-hermetic compressor.
- Shell and tubes condenser.
- Hot water heating coils.
- Pressure gauges.
- Electric reheater.
- R407c.

SPECIFICATIONS

Model : CFD-WSP 317

MODEL	COOLING CAPACITY		AIR FLOW RATE		DIMENSIONS (mm)			NET WEIGHT (kg)
	Btu/h	KW	CFM	L/S	Height	Width	Depth	
CFD-WSP 60	60,100	17.6	2,100	1,000	1,714	1,106	502	230
